OCTOBER Breast Cancer

AWARENESS MONTH

Potential warning signs for breast cancer

Breast cancer is the most commonly occurring cancer in women across the globe. According to the World Cancer Research Fund International, there more than 2.26 million new cases of breast cancer in women in 2020. Such figures are sobering, but it's important to recognize that breast cancer survival rates have improved dramatically in recent decades, providing hope to the millions of women who may be diagnosed with the disease in coming years.

Various factors have helped to improve breast cancer survival rates, and education about the disease is certainly among them. Women are their own greatest allies against breast cancer, and learning to spot its signs and symptoms is a great first step in the fight against this potentially deadly, yet treatable disease.

Knowing your body

The American Cancer Soci-

ety urges women to take note of how their breasts normally look and feel. That knowledge is vital because it helps women recognize when something does not look or feel good to the touch with their breasts. Screening alone may not be sufficient, as the ACS notes that mammograms do not find every breast cancer.

Signs and symptoms

When women are well acquainted with how their breasts look and feel, they're in better position to recognize any abnormalities, which may or may not be indicative of breast cancer. The ACS reports that the following are some potential warning signs of breast cancer.

- A new lump or mass: The ACS indicates that this is the most common symptom of breast cancer. A lump or mass that is cancerous is often painless, but hard and has irregular edges. However, lumps caused

by breast cancer also can be soft, round and tender. Some even cause pain.

- Swelling: Some women experience swelling of all or part of a breast even if they don't detect a lump.

- Dimpling: The skin on the breast may dimple. When this occurs, the skin on the breast sometimes mimics the look of an orange peel.

- Pain: Pain on the breast or nipple could indicate breast cancer.

- Retraction: Some women with breast cancer experience retraction, which occurs when the nipple turns inward.

- Skin abnormalities: Breast cancer may cause the skin on the breast to redden, dry out, flake, or thicken.

- Swollen lymph nodes: Some

women with breast cancer experience swelling of the lymph nodes under the arm or near the collarbone.

The presence of any of these symptoms merits a trip to the doctor. Women with these symptoms should not immediately assume they have breast

cancer, as the ACS notes that various symptoms of breast cancer also are indicative of non-cancerous conditions that affect the breasts. Only a physician can diagnose breast cancer, which underscores the importance of reporting symptoms to a doctor immediately.

The Good Taste Epicurean Food Market Experience:

The Greek Philosopher "Epicurus" is known for encouraging people not to eat large meals but to eat food that is the most pleasurable. Good Taste Epicurean Food Market is a specialty food store for people who are serious about cooking and who love to eat.

Carefully sourced from close-to-home and around-the-world, we bring you culinary delights that will delight your senses, nourish your body and elevate any occasion. Nothing quite satisfies like small-batch, hand-crafted foods. When you discover the difference, you won't go back. Visit us today for a true taste sensation.

Food is increasingly part of the "craft movement" in this country and today's consumers want their food to be artisanal. Artisanal and craft foods are anything made in small batches rather than mass-produced.

Good Taste Market offerings focus on imported and locally sourced artisanal cheese, handmade pasta, baked goods, small batch fresh roasted coffees, artisan cured meats, olives, jams, olive oil, balsamic vinegar, honey, crackers, and gourmet cooking ingredients.

We provide individualized customer service, fresh artisanal quality food and ingredients, and "onestop" shopping not found in supermarkets, convenience stores or farm markets.
